## RESEARCH

---

### Undergraduate Dissertation, A Case Study: The Educational and Labour Market Effects of The 1976 Universal Primary Education Programme in Nigeria

- In 1976, Nigeria introduced its free education programme that abolished fees in public primary schools and expanded the schooling infrastructure.
- Using data collected 33 years after the programme's introduction, I examine its effects on educational and long-run labour market outcomes.
- Supervised by Dr. Rasyad Parinduri, University of Nottingham Malaysia.

### Work in Progress: How do Fertility-Related Messages From Political Leaders Influence the Beliefs and Behaviour of the Masses? Evidence from Tanzania
